SUMMARY OF QUALIFICATIONS

Seasoned Proven experience in creating and maintaining high-quality, reusable code across various projects at The Home Depot, Indra, and Tich Solutions. Continuous learning and development are key drivers, with a focus on contributing to larger development teams. Complex problem-solving and enhancing user efficiency through innovative solutions are core strengths. Expertise spans designing, developing, and maintaining robust, commercial-quality web products and solutions with compelling user interfaces and experiences. Ensuring efficient performance and scalability of designs and implementations is a priority. A strong ability to learn new techniques and share knowledge in a small-team environment which underscores a passion for software development and high-quality code.

KEY ACHIEVEMENTS & SKILLS

- **Leadership Experience:** Led a front-end team of 7 people at Indra.
- **Project Management:** Successfully managed multiple projects for clients like Indra and Tich Solutions.
- **Technological Expertise:** Proficient in React, Angular, Node.js, GraphQL, Apollo, JavaScript, HTML, SCSS, and more.
- **Skills:** JavaScript | HTML | CSS | NodeJS | Express | TypeScript | MongoDB | React | Angular | Tailwind | Bootstrap | SASS/SCSS | Scrum | React Native | JSON | APIs REST | Single Sign-On (JWT) | Jest | React Testing Library | Jasmine | NextJS | Shadcn | Apollo | Python | AWS | GraphQL.
- **Languages:** Spanish: Native | English: Proficient

PROFESSIONAL EXPERIENCE

The Adecco Group (The Home Depot E-commerce)

09 | 24 - Present | Software Developer

- Contribute as a front-end developer with The Home Depot United States, utilizing a diverse technology stack to enhance user experiences.
- Leverage React, Jest, Node.js, GraphQL, Apollo, JavaScript, HTML, SCSS, and Ant Design to develop responsive and efficient web applications.
- Participate in Scrum ceremonies and utilize Jira for project management, collaborating effectively within an agile team environment.
- Engage in all responsibilities typical of a front-end developer, including designing and implementing user interfaces, optimizing web performance, and ensuring cross-browser compatibility.
- Utilize English language skills while collaborating with international teams, enhancing effective communication and project outcomes.

Indra

10 | 21 - 09 | 24 | Software Lead Engineer

- Worked on multiple projects with different clients, including Sabadell (1 project), Banco Caminos (1 project), and Telcel (5 projects as Frontend Lead).
- Led a front-end team of 7 people, demonstrating leadership and team management skills.
- Reviewed code and collaborated on pull requests using technologies such as Angular, React, JavaScript, HTML, CSS, Jest, Jasmine, Redux, NgRx, Git, GitLab, and Bitbucket.
- Collaborated with web designers, front-end, and back-end developers to design, build, and improve web products.
- Established communication and data exchange between frontend and backend systems through robust API integration.

Tich Solutions

07 | 20 - 07 | 21 | Full Stack Developer

- Worked on three projects, utilizing technologies for front-end development such as Angular, React, JavaScript, HTML, CSS, Git, and GitHub to create Single Page Applications (SPAs).
- Developed reusable code that could minimize the time needed to complete projects in the future.
- Coordinated with the team to connect different services with the front-end project.
- Spearheaded the implementation of Single Sign-On (SSO) solutions using JSON Web Tokens (JWT).
- Gained hands-on experience deploying applications to AWS, including EC2 for server hosting and S3 for static asset storage.

EDUCATION

Technological University of Mexico

Mechanical Engineering Graduate, Graduated: 2019
